- 1.5 Key risks are identified in the Risk Management Plan and Register.

## 2. RISK MANAGEMENT PLAN

- 2.1 This plan aims to define significant risks and define how the Council will manage and minimise these identified risks.
- 2.2 Risks can be defined as any actual or implied situations/ actions that will affect the interests and functioning of the Council.
- 2.3 The level of risk can be judged by a) the likelihood of it occurring, and b) the effect on the Council should it do so. Both aspects need to be minimised by resolute and agreed action by the Council, the Clerk and the Responsible Financial Officer (RFO).
- 2.5 Judgement of the level of risk will rely on best practice and on past experience. The Council will determine whether a risk is acceptable.
- 2.6 Generally much of the identified risks, which can be quantified financially, are covered by insurances carried by the Council, i.e.:
  - Public liability
  - Employer liability
  - Money
  - Fidelity guarantee
  - Property damage
  - Equipment
- 2.7 The appended Risk Management Register forms part of this Plan.
- 2.8 The Council will review the Plan as part of their Annual Meeting held in May.
- 2.9 The Plan should be read in conjunction with the Council's adopted Financial Regulations and Standing Orders.
